LET'S TALK EDUCATION

Last month, the AYSCBC board of directors had the opportunity to meet with Yukon's Minister of Education, Honourable Tracy-Anne McPhee to discuss a number of issues of importance. Below is a summary of the topics that were raised.

Education Audit

As outlined in the department's response to the Auditor General Report on Education, a number of strategies and reviews are proposed for the coming year. These include the development and implementation of:

- *an outcome management improvement strategy for Yukon Education,*
- *an improved process for annually monitoring the completion of teacher evaluations,*
- *an annual summary of the goals, data trends, and objectives from school growth plans; and*
- *an in-depth review of its services and supports for inclusive education.*

AYSCBC has requested an update regarding each of the above noted reviews and how Yukon School Councils will be engaged in the coming year and how the association may be able to assist with these efforts. As discussed, AYSCBC is particularly concerned about the disparities in learning outcomes for rural, First Nation and students requiring additional supports. The association looks forward to supporting Yukon Education's active response to better track and improve learning opportunities and outcomes for all students.

Teacher Evaluation

The association is supportive of teacher evaluations which includes ensuring evaluations are completed, that administrators are made fully aware of the evaluation process throughout the year and that evaluations are consistently applied in support of overall improved student outcomes. AYSCBC looks forward to continuing its work with the department in the year ahead and bringing clarity to the overall process, particularly as it pertains to the implementation of decisions.

School Growth Plans

School growth planning is an important tool for improving the overall success of each Yukon learner. AYSCBC appreciates the work being undertaken to integrate student and teacher learning plans as well as School Growth plans to achieve this shared goal. Updates regarding the status of school growth planning in Yukon schools, including how progress is being monitored and measured against student success, along with steps being taken by the department to assist schools with their planning was requested.

Yukon Excellence Awards

AYSCBC has asked to be kept informed of any proposed changes to the Yukon Excellence Awards and have asked that School Councils be engaged in any formal review of the program. Information as to how students are being made aware of the awards throughout the school year(s) as well as the process for making application and how students are able to access the award amounts, has also been requested.

LORAN AWARD Applications now open

Canada's largest and most comprehensive undergraduate award, granted based on character, service and leadership potential.

Loran is an intensive, four-year leadership development program. Recipients are selected on the basis of character, commitment to service, and the potential for leadership. To find Loran Scholars, we look beyond the transcript and find the evidence of character: integrity, courage, compassion, determination, and a high level of personal autonomy.

In the 2018-19 application year, there were 2 Loran Scholars and 2 Provincial Award winners selected from Northern Canada. As shared with AYSCBC, they would be thrilled to have more applicants from the region participate in the selections process this year!

Interested Grade 12 students can start their applications online at apply.loranscholar.ca. For more information about the award and application process, check out loranscholar.ca/becoming-a-scholar.
